SUMMARY

A probable explosives storage area is located approximately 30 kilometers (km) east-northeast of Voronezh and 5 km northwest of Orlovo (Figure 1).

The installation covers approximately 140 acres, is secured, and contains 8 probable explosives storage buildings. A support area immediately east contains an administration building, 4 quarters, and 3 support buildings (Figures 2 and 3).

This area is covered on TALENT photography of [REDACTED] and on [REDACTED] KEYHOLE missions between [REDACTED]. A firebreak which was visible on [REDACTED] photography can no longer be discerned. Absence of trackage, possible dismantlement of rail spur, and heavy over-growth of vegetation indicate possible abandonment of this installation.
